

Quarterly Business Review: Q3 2025

Prepared by the Finance Department | Internal circulation only | October 2025

1. Financial Summary

Revenue for the third quarter of 2025 was **PKR 412.6 million**, an increase of 14 percent on the same quarter of the previous year and 6 percent on Q2 2025. Gross margin improved to 27.4 percent from 25.9 percent, driven by improved load factors on the Lahore to Karachi line-haul and a reduction in empty running.

Operating costs were PKR 299.5 million. Fuel represented 38 percent of operating cost, down from 41 percent in the prior quarter following the renegotiation of the bulk diesel supply contract in July.

Operating profit for the quarter was PKR 113.1 million.

Metric	Q3 2025	Q2 2025	Q3 2024
Revenue (PKR m)	412.6	389.2	361.9
Gross margin	27.4%	25.9%	24.8%
Consignments handled	184,300	176,100	158,400
On-time delivery	94.1%	92.7%	91.2%
Claims ratio	0.38%	0.44%	0.51%
Headcount	487	465	421

2. Headcount

The company employed **487 people** at the close of the quarter, up from 465 at the end of Q2. Growth was concentrated in warehouse operations at the Karachi depot (14 additions) and in customer service (5 additions). Voluntary attrition for the quarter was 4.2 percent, below the 5.5 percent internal threshold.

3. New Business

Two significant clients were won during the quarter:

- **Tariq Textiles (Private) Limited.** A three year warehousing and distribution agreement covering 4,200 square feet of racked storage at the Lahore depot and outbound distribution to retail locations in Punjab. Estimated annual revenue PKR 46 million.
- **Crescent Pharma Distribution.** A two year line-haul agreement covering the Karachi to Lahore and Karachi to Islamabad lanes, with committed temperature-controlled capacity. Estimated annual revenue PKR 31 million. First shipment moved 22 August 2025.

4. Outlook

The commercial pipeline entering Q4 stands at PKR 190 million of annualised value at proposal stage or beyond. The principal operational risk for the coming quarter is capacity at the Lahore depot, which is now operating at 88 percent of racked capacity.
